

XA6950 is a hybrid integrated amplifier. It integrates the characteristics for both solid-state amplifier and vacuum tube amplifier.

Features:

1. Hybrid amplifiers (vacuum tube 6922 for preamp stage)
2. 130W/8ohm power output
3. Build-in USB interface audio DAC
4. Two toroidal transformers for power supply
5. Remote control

Compare XA6950 and XA6950(09)

Key Features	 XA6950	 XA6950(09)
Circuit	Solid-state amplifier	Hybrid amplifier 
Power output	100W/8ohms	130W/8ohms
Input	4 RCA, 1 XLR	3RCA, 1 XLR, 1 USB
Power transistors (each channel)	4 pairs of 2SA1695P/2SC4468P	3 pairs of 2SA1295/2SC3264
Overall dimensions (W/D/H)	430mm*455mm*157mm	430mm*460mm*168mm
Net weight	24Kg	26.7Kg

Remote control	✓	✓
Build-in USB interface audio DAC	✗	✓
Power amplifier input	✗	✓

Specifications

Rated Output Power: 130W/8 ohms

Input: 3RCA, 1 XLR, 1 USB

Frequency Response: 10Hz-100KHz

S/N Ratio: 95dB

Number of Channels : 2

Remote Control: Supported

Net Weight: 26.7Kg

Dimensions (W*H*D): 430mm*460mm*168mm
